

INFRAMARK EMPLOYEES LETTER OF SUPPORT

Board of Directors
Water Pollution Control Authority Commission
City of Bridgeport
695 Seaview Avenue
Bridgeport, CT 06607

Dear WPCA Commission,

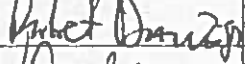

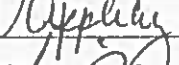

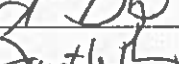

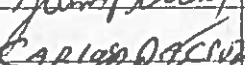

We are employees of INFRAMARK, working at the Bridgeport water treatment facility plants. We recommend that the Board continue to partner with INFRAMARK in the management and operation of the Bridgeport water treatment facility plants.

Many of us are long term employees of the Bridgeport Water Pollution Control Authority. Several of us are also residents in the City of Bridgeport. We have personal experience working with the various companies who, over the years, have partnered with the Bridgeport Water Pollution Control Authority. We believe that INFRAMARK has proven itself to be a highly competent company, dedicated to ensuring that these facilities are well maintained and run efficiently.

INFRAMARK has overseen these facilities since 2017. Several facility improvements have occurred under its management. INFRAMARK has maintained a strong working relationship between management and labor. The benefits realized from this management style include efficient facility improvements and maintenance, higher employee morale and reduced safety-related incidents.

We sincerely hope that you will consider our opinion in this matter as you make your final decision.

Respectfully,
